This level of recognition will only further drive us to improve upon our many innovation initiatives to provide the most entertaining and engaging play experience for our customers."

THE WIZARD OF OZ has been the publication's favorite video slot since its introduction in 2007. The game features the sights and sounds of the original 1939 classic and uses "Sensory Immersion" to bring players into the game like nothing before it.

MONOPOLY has also been featured multiple times as a winner in the Favorite Video Slot Bonus Round category, due in part to players' love for the popular brand. The game's bonus round works in the classic *MONOPOLY* board and rewards players certain amounts of credits for landing on different properties.
