LAS VEGAS, Sept. 6, 2017 /PRNewswire/ -- Scientific Games Corporation (NASDAQ: SGMS) ("Scientific Games" or the "Company") today announced it will soon outfit the West Coast's largest resort-casino with 4,200 new *iVIEW*4 on-device player-interface controllers. Pechanga Resort & Casino in Temecula, Calif. awarded Scientific Games the contract to install the award-winning technology units inside all slot machines across its 200,000 square foot casino floor. *iVIEW*4 provides unrivaled marketing opportunities and player experiences through its interactive and personalized player content capabilities.

Pechanga Resort & Casino is installing Scientific Games' transformative new *iVIEW4*, a state-of-the-art solution which displays dynamic marketing content, animations and video on the gaming machine, supports cardless play, and offers instant response through a sophisticated multi-touch display.

Pechanga Resort & Casino Chief Marketing Officer Bill Anderson said, "We're excited to upgrade our *iVIEW* technology casino-wide and begin capitalizing on the operating efficiencies and more powerful marketing content capabilities. The sophistication and features of *iVIEW4* will provide a superior customer experience, enabling us to deliver highly interactive, personalized, and dynamic content – providing the next-level experiences our guests expect from Pechanga."

Scientific Games' robust new *iVIEW4* technology supports Fast-Boot for seven times faster start-up, and 10 times more memory for games and content. Utilizing an advanced upgradeable operating system, *iVIEW4* supports HTML5 graphics and uses web widgets to enable casino marketing teams to easily update content dynamically throughout the casino on Pechanga's 4,200 gaming devices with current promotions, advertisements, videos and more – significantly enhancing the player experience.

The new technology also enables web-based content, which provides improved content management for casino personnel and enhances omni-channel marketing and bonusing opportunities across *iVIEW* displays, player kiosks, and mobile devices.

Scientific Games offers multiple applications that seamlessly integrate with *iVIEW* and *iVIEW DM*, including the *Elite Bonusing Suite*® of 12 turn-key promotions for instant rewards at the point-of-play and *Beverage Ordering Service System* ("*BOSS*"), a touch-enabled interface that allows players to order drinks without leaving the slot machine. For seamless third-party integration, *iVIEW4* features more hardware ports and improved software architecture for interfacing with third-party solutions.

Scientific Games Bob Parente, Chief Revenue Officer, Gaming, said, "We are thrilled that Pechanga Resort & Casino has chosen to replace their legacy *iVIEW* technology with our *iVIEW4*, enabling them to better market and communicate with their players through this innovative technology. Pechanga has been a great partner for many years, and was one of the first casinos to implement *iVIEW DM* across their casino floor. They are always on the cutting

edge and the capabilities of our next-generation *iVIEW4* will undoubtedly enable them to offer their patrons even more engaging, visually exciting, and interactive experiences, rewards, and entertainment."

Forward-Looking Statements

In this press release, Scientific Games makes "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements describe future expectations, plans, results or strategies and can often be identified by the use of terminology such as "may," "will," "estimate," "intend," "plan," "continue," "believe," "expect," "anticipate," "target," "should," "could," "potential," "opportunity," "goal," or similar terminology. These statements are based upon management's current expectations, assumptions and

estimates and are not guarantees of timing, future results or performance. Therefore, you should not rely on any of these forward-looking statements as predictions of future events. Actual results may differ materially from those contemplated in these statements due to a variety of risks and uncertainties and other factors, including, among other things: competition; U.S. and international economic and industry conditions, including slow growth of new gaming jurisdictions, slow addition of casinos in existing jurisdictions, and declines in the replacement cycle of gaming machines; ownership changes and consolidation in the gaming industry; opposition to legalized gaming or the expansion thereof; inability to adapt to, and offer products that keep pace with, evolving technology, including any failure of our investment of significant resources in our R&D efforts; inability to develop successful products and services and capitalize on trends and changes in our industries, including the expansion of internet and other forms of interactive gaming; laws and government regulations, including those relating to gaming licenses and environmental laws; dependence upon key providers in our social gaming business; inability to retain or renew, or unfavorable revisions of, existing contracts, and the inability to enter into new contracts; level of our indebtedness, higher interest rates, availability or adequacy of cash flows and liquidity to satisfy indebtedness, other obligations or future cash needs; inability to reduce or refinance our indebtedness; restrictions and covenants in debt agreements, including those that could result in acceleration of the maturity of our indebtedness; protection of our intellectual property, inability to license third party intellectual property, and the intellectual property rights of others; security and integrity of our products and systems and reliance on or failures in information technology and other systems; challenges or disruptions relating to the implementation of a new global enterprise resource planning system; failure to maintain internal control over financial reporting; natural events that disrupt our operations or those of our customers, suppliers or regulators; inability to benefit from, and risks associated with, strategic equity investments and relationships; failure to achieve the intended benefits of our acquisitions; incurrence of restructuring costs; implementation of complex revenue recognition standards or other new accounting standards; changes in estimates or judgments related to our impairment analysis of goodwill or other intangible assets; fluctuations in our results due to seasonality and other factors; dependence on suppliers and manufacturers; risks relating to foreign operations, including fluctuations in foreign currency exchange rates, restrictions on the payment of dividends from earnings, restrictions on the import of products and financial instability, including the potential impact to our business resulting from the affirmative vote in the U.K. to withdraw from the EU, and the potential impact to our instant lottery game concession or VLT lease arrangements resulting from the recent economic and political conditions in Greece; changes in tax laws or tax rulings, or the examination of our tax positions; dependence on key employees; litigation and other

liabilities relating to our business, including litigation and liabilities relating to our contracts and licenses, our products and systems, our employees (including labor disputes), intellectual property, environmental laws and our strategic relationships; influence of certain stockholders; and stock price volatility.

Additional information regarding risks, uncertainties and other factors that could cause actual results to differ materially from those contemplated in forward-looking statements is included from time to time in our filings with the SEC, including the Company's current reports on Form 8-K, quarterly reports on Form 10-Q and its latest annual report on Form 10-K filed with the SEC on March 3, 2017 (including under the headings "Forward Looking Statements" and "Risk Factors"). Forward-looking statements speak only as of the date they are made and, except for Scientific Games' ongoing obligations under the U.S. federal securities laws, Scientific Games undertakes no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.
