

Multi-Channel Appeal of Scientific Games Jackpot Party and Gold Fish Brands Building Fan Base, Driving Lottery Instant Games Sales

Popularity of Lottery, Interactive and Casino Game Experiences Demonstrates Cross-Over Appeal and Unique Availability of Company's Entertainment Content

LAS VEGAS and ATLANTA, July 19, 2016 /PRNewswire/ -- Scientific Games Corporation ("Scientific Games" or the "Company") today announced that two of the Company's popular casino games brands are proving their multi-channel appeal since debuting as lottery games earlier this year. *Jackpot Party*[®], a Scientific Games brand featured in slots and interactive gaming products, debuted as a lottery game on a \$5 instant game created for the New York Lottery in February. The new *Jackpot Party* instant game has established a strong following with New York players. The company's multi-channel *Gold Fish*[®] brand is also showing its cross-channel appeal after debuting on a \$2 Ohio Lottery instant game in March. After eight weeks, the *Gold Fish* instant game performed better than all other \$2 Ohio Lottery instant games offered in the last fiscal year.

The company's multi-channel Gold Fish(R) brand is also showing its cross-channel appeal. After eight weeks, the Gold Fish instant game performed better than all other \$2 Ohio Lottery instant games offered in the last fiscal year.

With a top prize of \$500,000 to \$1 million, the all-new New York Lottery *Jackpot Party* instant game offers players unique entertainment experiences across the lottery, interactive and casino game experiences. The lottery instant game features a bonus game on the back of the ticket with five more chances to win cash prizes instantly. Players can scan a QR code on the ticket with their mobile phone to go directly to the *Jackpot Party* second-chance promotion on the New York Lottery Sweepstakes website. They can also download and play the exciting *Jackpot Party* mobile/social game from the site. To participate in the promotion, players enter codes from their non-winning *Jackpot Party* instant games for a chance to win a Grand Prize VIP trip to New York City for an exclusive *Jackpot Party* event where they can win up to \$25,000 cash. Other prizes include *Jackpot Party* instant game prize packs, New York Lottery gift cards, and *Jackpot Party* free-play vouchers redeemable at New York racinos.

Gardner Gurney, Director of the New York Lottery, said, "We are always searching for ways to work collectively with the video gaming facilities within New York and *Jackpot Party* has offered us this opportunity. As a game offered at some of the video gaming venues in New York, this game was perfect for crossing over to our lottery portfolio. Just as video gaming customers expect bonusing opportunities, the back of the *Jackpot Party* instant game offers lottery players similar bonus opportunities to win. New York players have been receptive to the instant game, we see *Jackpot Party* as a brand with omni-channel appeal."

The Ohio Lottery's *Gold Fish* instant game connects the lottery retail experience to a highly-engaging, interactive second-chance game with social sharing components. Players enter non-winning tickets online for the chance to win \$20,000 prizes. The interactive game takes players on an under-the-sea adventure with the opportunity to win instant cash prizes of \$25 and \$50, as well as virtual coins, fish food, gear and decor. Players advance through various levels of challenges and achievements in the animated game by "feeding" their virtual pet gold fish and creating a healthy undersea environment. Social log-in and leaderboards allow players to compete and post their scores and wins, deepening the game experience.

Dennis Berg, Director of the Ohio Lottery, said, "The *Gold Fish* brand is a popular VLT game in our Ohio racinos, so it was a natural cross-over to a lottery instant game. The *Gold Fish* instant game is performing well in our \$2 game category."

Michael Lightman, Senior Vice President, Lottery Interactive at Scientific Games, said, "This is really the beginning of some fantastic cross-over brand innovation developed by Scientific Games since the integration of *Bally*™ and *WMS*® content following our mergers. Our player motivation-based segmentation study across lottery and gaming consumers in Europe and the U.S. showed us that 74 percent of casino slot machine players also play lottery instant games. Incorporating our popular casino brands into lottery products introduces lottery to other gaming enthusiasts while the innovative game attributes designed into these new games will help deepen engagement with existing players."

The Company provides games, technology and services to more than 1,500 lottery and casino customers globally.

Forward Looking Statements

In this press release, Scientific Games makes "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements describe future expectations, plans, results or strategies and can often be identified by the use of terminology such as "may," "will," "estimate," "intend," "plan," "continue," "believe," "expect," "anticipate," "target," "should," "could," "potential," "opportunity," "goal," or similar terminology. These statements are based upon management's current expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Actual results may differ materially from those contemplated in these statements due to a variety of risks and uncertainties and other factors, including, among other things: competition; U.S. and international economic and industry conditions, including declines in or slow growth of gross gaming revenues or lottery retail sales, reductions in or constraints on capital spending by gaming or lottery operators and bankruptcies of, or credit risk relating to, customers; limited growth from new gaming jurisdictions, declines in the replacement cycle of existing gaming machines and slow addition of casinos in existing jurisdictions; ownership changes and consolidation in the gaming industry, including by casino operators; opposition to legalized gaming or the expansion thereof; inability to adapt to, and offer products that keep pace with, evolving technology; inability to develop successful gaming concepts and content; laws and

government regulations, including those relating to gaming licenses and environmental laws; inability to identify and capitalize on trends and changes in the gaming, lottery and interactive industries; dependence upon key providers in our social gaming business; inability to retain or renew, or unfavorable revisions of, existing contracts, and the inability to enter into new contracts; level of our indebtedness, higher interest rates, availability or adequacy of cash flows and liquidity to satisfy indebtedness, other obligations or future cash needs; inability to reduce or refinance our indebtedness; restrictions and covenants in our debt agreements, including those that could result in acceleration of the maturity of our indebtedness; protection of our intellectual property, inability to license third party intellectual property, and the intellectual property rights of others; security and integrity of our software and systems and reliance on or failures in our information technology systems; natural events that disrupt our operations or those of our customers, suppliers or regulators; inability to benefit from, and risks associated with, strategic equity investments and relationships, including (i) the inability of our joint venture to realize the anticipated benefits under its private management agreement with the Illinois lottery or from the disentanglement services performed in connection with the termination thereof, (ii) the inability of our joint venture to meet the net income targets or other requirements under its agreement to provide marketing and sales services to the New Jersey Lottery or otherwise to realize the anticipated benefits under such agreement and (iii) failure to realize the anticipated benefits related to the award to our consortium of an instant lottery game concession in Greece; failure to achieve the intended benefits of the Bally acquisition or the WMS acquisition, other recent acquisitions, or future acquisitions, including due to the inability to successfully integrate such acquisitions or realize synergies in the anticipated amounts or within the contemplated time frames or cost expectations, or at all; disruption of our current plans and operations in connection with our recent acquisitions (including in connection with the integration of Bally and WMS), including departure of key personnel or inability to recruit additional qualified personnel or maintain relationships with customers, suppliers or other third parties; costs, charges and expenses relating to the Bally acquisition and the WMS acquisition; incurrence of employee termination or restructuring costs, and impairment or asset write-down charges; changes in estimates or judgments related to our impairment analysis of goodwill or other intangible assets; implementation of complex revenue recognition standards; fluctuations in our results due to seasonality and other factors; dependence on suppliers and manufacturers; risks relating to foreign operations, including fluctuations in foreign currency exchange rates and restrictions on the payment of dividends from earnings, restrictions on the import of products and financial instability, including the potential impact to our instant lottery game concession or VLT lease arrangements resulting from the recent economic and political conditions in Greece; dependence on our key

employees; litigation and other liabilities relating to our business, including litigation and liabilities relating to our contracts and licenses, our products and systems, our employees (including labor disputes), intellectual property and our strategic relationships; influence of certain stockholders; and stock price volatility.

Additional information regarding risks, uncertainties and other factors that could cause actual results to differ materially from those contemplated in forward-looking statements is included from time to time in our filings with the SEC, including the Company's current reports on Form 8-K, quarterly reports on Form 10-Q and its latest annual report on Form 10-K filed with the SEC on February 29, 2016 (including under the headings "Forward Looking Statements" and "Risk Factors"). Forward-looking statements speak only as of the date they are made and, except for Scientific Games' ongoing obligations under the U.S. federal securities laws, Scientific Games undertakes no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.
