LAS VEGAS, April 28, 2016 /PRNewswire/ -- Scientific Games Corporation ("Scientific Games" or "the Company") (NASDAQ: SMGS) today announced that Angel of the Winds Casino & Hotel, owned and operated by the Stillaguamish Tribe, has selected Scientific Games to provide a broad spectrum of casino-management systems solutions for its casino resort in Arlington, Washington – replacing a competitor's systems technology currently installed at Angel of the Winds.

"We did our due diligence, and after 10 months of research it was apparent why Scientific Games is an industry leader; no other company can provide integrated solutions of this breadth and depth," said Travis O'Neil, General Manager of the Angel of Winds Casino & Hotel. "We are especially excited about using *iVIEW*[®] *DM* and *Elite Bonusing Suite*[™] applications to increase

carded play, new player's club registrations, and most of all, add excitement across our casino floor. It was clear to us that these products separated Scientific Games' systems solutions well above the other options in the marketplace."

In addition to the broad array of systems applications, Angel of the Winds Casino & Hotel has added an additional 88 Scientific Games slot machines to its casino floor. The casino resort selected a mix of the Company's *ALPHA™ 2 Pro Series™ Wave™* and *ALPHA™ 2 Pro Series™ V27/27* slot platforms, as well as a portfolio of high-performing game content including *Dragon Rising®*, *Precious Jade®*, and *Lucky Tree®*.

Scientific Games Group Chief Executive of Gaming Derik Mooberry said, "Our extensive, integrated systems solutions will deliver a single view of the player, centralized management, and offer exciting new ways to attract, reward, and engage players while streamlining operations at Angel of the Winds Casino. At the same time, the casino resort has added some of our newest high-performing games and innovative game platforms that are designed to drive revenue and add excitement to their casino floor. We are truly honored by Angel of the Winds' confidence in Scientific Games."

The casino resort is installing nearly the entire *Bally Systems™* suite to realize operating efficiencies and drive incremental revenue, including:

- The *SDS*[®] slot-monitoring system which provides crucial data in real-time. *SDS* fully integrates with other systems, including the *CMP*[™] player-tracking system.
- Angel of the Winds Casino & Hotel is installing Scientific Games' *iVIEW DM* on-device messaging technology on each of its 1,127 gaming machines. The backward-compatible *iVIEW DM* solution enables gaming operators to present content, such as player account information, bonusing, promotional offers, directed marketing messages, drink ordering, and employee functions right on the main game screen or top screen – for touchscreen player's club access, marketing, and bonusing at the point of play.
- Scientific Games' *iVIEW* technology is also the player user interface for the *Elite Bonusing Suite*, featuring 12 interactive applications that add dramatic levels of excitement on the casino floor through second-chance promotions and games, virtual-racing events, tournaments, flex rewards, and much more.
- The *Servizio*[™] Mobile Service Solutions suite of intelligent applications that send critical messages to employees about the casino floor.
- The *TableView*[™] table-management solution allows casino pit staff to enter and update player ratings digitally, replacing the manual ratings process and enabling casinos to reward table players as they do slot players.
- *Business Intelligence* uses powerful visualization, reporting, campaign management, and predictive analytics to help casinos analyze the extensive data gathered from their business systems, providing actionable and analytically based business insights.
- *CoolSign*[™] is a media-management and marketing solution, which manages a casino's digital media enterprise from a central location.

Forward Looking Statements

In this press release, Scientific Games makes "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements describe future expectations, plans, results or strategies and can often be identified by the use of terminology such as "may," "will," "estimate," "intend," "plan," "continue," "believe," "expect," "anticipate," "target," "should," "could," "potential," "opportunity," "goal," or similar terminology. These statements are based upon management's current expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Actual results may differ materially from those contemplated in these statements due to a variety of risks and uncertainties and other factors, including, among other things: competition; U.S. and international economic and industry conditions, including declines in or slow growth of gross gaming revenues or lottery retail sales, reductions in or constraints on capital spending by gaming or lottery operators and bankruptcies of, or credit risk relating to, customers; limited growth from new gaming jurisdictions, declines in the replacement cycle of existing gaming machines and slow addition of casinos in existing jurisdictions; ownership changes and consolidation in the gaming industry, including by casino operators; opposition to legalized gaming or the expansion thereof; inability to adapt to, and offer products that keep pace with, evolving technology; inability to develop successful gaming concepts and content; laws and government regulations, including those relating to gaming licenses and environmental laws; inability to identify and capitalize on trends and changes in the gaming, lottery and interactive industries; dependence upon key providers in our social gaming business; inability to retain or renew, or unfavorable revisions of, existing contracts, and the inability to enter into new contracts; level of our indebtedness, higher interest rates, availability or adequacy of cash flows

and liquidity to satisfy indebtedness, other obligations or future cash needs; inability to reduce or refinance our indebtedness; restrictions and covenants in our debt agreements, including those that could result in acceleration of the maturity of our indebtedness; protection of our intellectual property, inability to license third party intellectual property, and the intellectual property rights of others; security and integrity of our software and systems and reliance on or failures in our information technology systems; natural events that disrupt our operations or those of our customers, suppliers or regulators; inability to benefit from, and risks associated with, strategic equity investments and relationships, including (i) the inability of our joint venture to realize the anticipated benefits under its private management agreement with the Illinois lottery or from the disentanglement services performed in connection with the termination thereof, (ii) the inability of our joint venture to meet the net income targets or other requirements under its agreement to provide marketing and sales services to the New Jersey Lottery or otherwise to realize the anticipated benefits under such agreement and (iii) failure to realize the anticipated benefits related to the award to our consortium of an instant lottery game concession in Greece; failure to achieve the intended benefits of the Bally acquisition or the WMS acquisition, other recent acquisitions, or future acquisitions, including due to the inability to successfully integrate such acquisitions or realize synergies in the anticipated amounts or within the contemplated time frames or cost expectations, or at all; disruption of our current plans and operations in connection with our recent acquisitions (including in connection with the integration of Bally and WMS), including departure of key personnel or inability to recruit additional qualified personnel or maintain relationships with customers, suppliers or other third parties; costs, charges and expenses relating to the Bally acquisition and the WMS acquisition; incurrence of employee termination or restructuring costs, and impairment or asset write-down charges; changes in estimates or judgments related to our impairment analysis of goodwill or other intangible assets; implementation of complex revenue recognition standards; fluctuations in our results due to seasonality and other factors; dependence on suppliers and manufacturers; risks relating to foreign operations, including fluctuations in foreign currency exchange rates and restrictions on the payment of dividends from earnings, restrictions on the import of products and financial instability, including the potential impact to our instant lottery game concession or VLT lease arrangements resulting from the recent economic and political conditions in Greece; dependence on our key employees; litigation and other liabilities relating to our business, including litigation and liabilities relating to our contracts and licenses, our products and systems, our employees (including labor disputes), intellectual property and our strategic relationships; influence of certain stockholders; and stock price volatility.

Additional information regarding risks, uncertainties and other factors that could cause actual results to differ materially from those contemplated in forward-looking statements is included from time to time in our filings with the SEC, including the Company's current reports on Form 8-K, quarterly reports on Form 10-Q and its latest annual report on Form 10-K filed with the SEC on February 29, 2016 (including under the headings "Forward Looking Statements" and "Risk Factors"). Forward-looking statements speak only as of the date they are made and, except for Scientific Games' ongoing obligations under the U.S. federal securities laws, Scientific Games undertakes no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.
